ABOUT US

Senan Industry LLC is a leading manufacturer of Blow Molded Plastic Jerry Cans and Engine Lubricant Containers in the United Arab Emirates. Established in 2009 and strategically located in Ras Al Khor, Dubai, we specialize in manufacturing high-quality plastic packaging solutions with efficient delivery support across the region.

Senan Industry belongs to the renowned M.A.H.Y. Khoory Group, a well-established business group in the UAE since 1935, employing more than 2000 people across various sectors including manufacturing, trading, pumps, generators, electric motors, cables, photocopy paper, and distribution businesses.

Our production facility is equipped with state-of-the-art German machinery and moulds, and we use only 100% pure virgin HDPE raw materials sourced from highly reputed polymer suppliers in the region. Unlike many manufacturers, we do not use Calcium Carbonate fillers that can compromise product quality.

To ensure the highest standards of quality and consistency, we manufacture our own caps, enabling us to provide perfectly matching caps and cans with customization options in colors, shapes, sizes, and branding according to customer requirements.

Our commitment to quality includes:

- Fully automatic German machinery
- High-pressure leak testing for every can
- Regular drop tests, thickness checks, and weight measurements
- Strict quality control procedures
- Reliable customer support and timely deliveries
